

A photograph of a branch with large, green, lobed leaves, possibly from a fig tree, set against a light, neutral background. The branch runs diagonally across the frame. The text is overlaid on the left side of the image.

EVERYTHING IN **Bathrooms** 2021

The world is changing and we need to adapt to new circumstances. More connected than ever before and facing new challenges, in recent times we have had to transform our lifestyle, turning our homes into the main setting of our everyday existence.

At Roca we have devoted over one hundred years to meeting the needs of families in their bathroom spaces, and that commitment leads us to continue evolving together during this period of time in which our home reveals itself as essential.

In order to help you rediscover the enjoyment found in our daily lives, we would like to offer you everything you need to have the bathroom you wish for. Inspiration, ideas and tips for a more hygienic, more organized, more relaxing, more sophisticated and safer bathroom, always in line with your demands.

We also present solutions that will help you turn the bathroom into the only space in your home where health and wellbeing are combined. In these pages you will find products that prevent hand contact, materials and technologies that make cleaning easier and many solutions to easily renovate your

bathroom.

Last but not least, we want you to remember the small pleasures and whims that make reality more pleasant. In this new issue of the "Everything in Bathrooms" magazine we encourage you to fill your bathroom with colored proposals and innovative designs that will stimulate your senses.

Aware of the importance of the here and now, we at Roca invite you to make the most of every minute to rediscover your bathroom and make it truly yours.

As part of its product development policy, Roca reserves the right to modify at any time and without prior notice, any of the models and elements described in this document; Roca therefore does not guarantee the availability of those products nor does it ensure that the specifications, colors, shapes and other reproduced features are identical to the real ones. The displayed settings are merely decorative, and no technical requirements have been taken into consideration while composing them.
