ARMANI / Roca

In spite of its classical inspiration, this shower column is equipped with innovative technology, including the ultimate modern efficiency delivered by its thermostatic feature. Including a hand shower with a 1.7 m shower hose and a high-flow rain head, it provides impeccable functionality and a touch of luxury to the shower experience. Fitted with the Security 38 ® system, it protects the user from excessive water temperatures, while the Quick reaction® feature ensures that the selected temperature remains unchanged during use. Moreover, the anti-burn safety feature ensures that any unexpected disruption in the cold water supply automatically stops flow to avoid any danger.

This thermostatique shower column is available in thee different finishes: Greige, a balance between grey and beige, is a leitmotif in Giorgio Armani's creations and is considered by many to be the ideal shade in interior design. Brushed Steel adds a discreet, sophisticated feel in an elegant twist on an industrial ambience.

Chrome finish enhances the fresh, classic look in any bathroom space, and each piece has been treated with Roca's exclusive Ever shine® to ensure permanent shine.

Both the Greige and Brushed Steel finishes have been treated with PVD technology, a state-of-the-art process that bonds the finish to the tap to creating durable brassware.

ARMANI / Roca

Application place: Shower
Can be operated at low pressure (below 1 bar)
Diverter-flow regulator
Installation type: Built-in
Temperature selection
Type of cartridge: Thermostatic
Water and energy saving
Water connection thread: 1/2"

Colours and Finishes

How to obtain the reference number
Replace the ".." with the desired finish code
from the list below

C00 Chrome

VC0 Greige

VS0 Brushed steel
